

Graduate School Attendance

The table below shows the number of Earlham graduates who enrolled in graduate school and/or earned a graduate degree after graduating from Earlham. The National Student Clearinghouse is the source of this data. The Clearinghouse has over 3,400 participating U.S. colleges. 92% of U.S. college students attend Clearinghouse schools. We feel the figures in the tables below are conservative estimates of the number of Earlham graduates who go on to graduate school since some of our graduates enroll in international colleges or U.S. colleges who are not Clearinghouse participants. Also, some of the Clearinghouse schools report enrollment but do not report degrees earned.
